We have recently partnered with Neighbors by Ring. For those that are not familiar with it, it is a way for our residents to share video with us and additionally we can send out alerts and request video when the need arises. I have added you and all of your officers as users. In the very near future you will be receiving an email from Ring inviting you to join and set up your account. Please ensure that officers set up their accounts. Once their accounts are set up we will train them on the use of Neighbors.

Any questions please let me know.

This email is not spam. Everyone please take a minute to actually log in and create an account. As of now there is nothing else really required of patrol this will basically be an investigative tool for requesting video from residents for us. With that said the Chief wants everyone to at least be able to log in for now and be set up. You can however feel free to log in and check for anything interesting when you are bored but just be aware that there is not a training portal so be careful what you click on. I would also suggest just creating a shortcut on your desktop in the event you need it in the future. Any questions feel free to stop by or reach out.
